LONG-TERM INCENTIVE PROGRAM 2025

The general meeting resolved in accordance with the board of directors' proposal on the implementation of a long-term incentive program 2025 (LTIP 2025) and on hedging measures regarding LTIP 2025 through the transfer of treasury shares.

The incentive program is implemented for current and future senior executives and other employees in the company or its subsidiaries, in order to encourage a personal long-term ownership in the company, and in order to increase and strengthen the potential for recruiting, retaining and motivating such senior executives and other employees.

Participants shall be entitled, upon completion of a vesting period, subject to continued employment, and depending on the fulfillment of the performance requirements related to the company's Earnings Before Interest, Taxes, Depreciation and Amortisation ("EBITDA"), during the financial years 2026-2028, and the ContextVision share's total shareholder return ("TSR"), to receive allotment of shares in ContextVision ("Performance Shares"). Participants shall not pay any consideration for the allotted Performance Shares.

LTIP 2025 is directed towards not more than fifty (50) current and future senior executives and other employees in the company or its subsidiaries, divided into three categories of participants:

Category	Maximum number of Performance Shares per person	Maximum number of Performance Shares per category
A) CEO, maximum 1 person	142,200	142,200
B) Group Management Team, maximum 4 persons	47,400	189,600
C) Other employees, maximum 45 persons	47,400	1,066,500

Allotment of Performance Shares within LTIP 2025 will be made during a limited period of time following the announcement of the quarterly report for the fourth quarter of 2028. The period up to this date is referred to as the vesting period. The intention is that the board of directors shall launch LTIP 2025 as soon as practically possible following the general meeting. The term of LTIP 2025 is approximately three years.

The Participant can receive allotment of the maximum number of Performance Shares set out in the table above. Of the maximum number of Performance Shares that can be allotted per person, fifty (50) percent of the Performance Shares shall be linked to the fulfillment of the performance requirement regarding EBITDA and fifty (50) percent of the Performance Shares shall be linked to the fulfillment of the performance requirement regarding TSR.

The two performance requirements will be determined by the board of directors with a minimum and a maximum level for each performance requirement. No allotment of Performance Shares linked to a certain performance requirement will take place below the minimum level for such performance requirement. Full allotment of Performance Shares linked to a certain performance requirement will take place at or above the maximum level of such performance requirement. The number of Performance Shares that can be allotted increases linearly between the minimum and maximum levels of the respective performance requirements.

LTIP 2025 may comprise a maximum of 1,398,300 shares in ContextVision. Together with 419,500 shares that may be transferred on Euronext Oslo Stock Exchange in order to hedge the cash flow related to the company's payments of social security contributions associated with LTIP 2025, the total number of shares amounts to 1,817,800. This corresponds to approximately 2.3 percent of all shares and votes in ContextVision.
